Professional Summary

Junior developer searching for a role that allows me to use my adaptability and communication skills. Constantly yearning to broaden my skill set both technologically and mentally. Past work experiences have given me strengths in thinking on my feet and continuously being flexible. I am choosing a career as a programmer because I enjoy collaborating and contributing to a whole.

Technical Skills

Object Oriented Programming(OOP) - C#, .NET framework

Development Tools and Techniques - unit testing, integration testing, TDD, Git
